Product details & directions

BrightDoor Mobile is a native Apple (iPhone®/iPad®) and Android™ app custom-branded for you. It features all the content buyers expect to have fingertip access to: maps, listings, galleries, saved favorites and more. All delivered to screens your customers know how to use - and always have in their pockets and purses. So you get it all, without the heavy lifting (think “time, money and frustration”) that typically accompanies custom app development.

BrightDoor Mobile also includes location-based marketing capabilities (Bluetooth beacons, geofencing), so you’ll be able to turn your sales environments and properties into interactive sales spaces – instantly, automatically and powerfully. This lets you deliver location-specific content as your homebuyers approach an area of interest.

Key Features

“Built for mobile” user experience

Your brand and content

Location-based marketing

Send targeted sales messages

Turn-by-turn directions

Phone and tablet versions

BrightDoor Mobile is a cost-effective way to establish a mobile app presence (and native apps remain the preferred option for mobile users). Consider it your mobile marketing channel for one-to-one lead tracking and sales communication. Best of all, you can put it to work on hundreds of millions of devices: BrightDoor Mobile ships with support for iOS® (Apple®) and Android™ (Google) compatible phones and tablets.
